SUMMARY

Motivated and adaptable software engineer with experience in front-end development and responsive design.
Proficient in building scaleless web applications, with growing expertise in full-stack and UI/UX design.
Strong problem-solving skills and a collaborative mindset, eager to contribute to innovative projects while continuously learning.

EXPERIENCE

Associate Software engineer   Jan '21 — Present
Tulolag Petroleum Energy Ltd   Lagos, Nigeria (Remote)

As an **Associate Software Engineer** at Tulolag Petroleum Energy Ltd, I play a pivotal role in driving the company's digital transformation efforts. I oversee the integration and management of modern IT systems to streamline operations, enhance data security, and improve overall efficiency. My position involves leveraging technology to align the organization's processes with industry trends, ensuring the business remains competitive in the energy sector. By collaborating with cross-departmental teams, I deliver innovative solutions that support the company's strategic objectives and operational excellence.

- Spearheaded the adoption of modern IT solutions, streamlining company operations and improving overall efficiency.
- Supervised the implementation of secure data management systems to enhance organizational data integrity.
- Managed and maintained the company's IT infrastructure, ensuring seamless operations and minimal downtime.
- Directed technology-driven projects, enabling the business to adapt to emerging energy sector trends.
- Collaborated with cross-departmental teams to integrate technology into day-to-day operations effectively.

Software Intern   Jan '23 — Jun '23
Sterling Bank Headquarters   Lagos, Nigeria

As a **Software Intern** at Sterling Bank Headquarters, I contributed to the development and optimization of web applications to support the bank's digital initiatives. My role involved creating responsive and accessible user interfaces while collaborating with cross-functional teams to ensure seamless functionality. I focused on enhancing backend operations by improving API performance and functionality. Through debugging and resolving technical issues, I ensured robust application performance across various devices, aligning with the bank's commitment to delivering exceptional user experiences.

- Collaborated with cross-functional teams to develop and maintain responsive web applications using ReactJS and Chakra UI.
- Designed and optimized user interfaces for improved accessibility and seamless user experiences.
- Enhanced API routes and developed new endpoints, improving application functionality and performance.
- Conducted debugging and resolved issues to ensure smooth performance across multiple devices.

Software Intern   Lagos, Nigeria
NIIT

- Gained hands-on experience in building web applications using ReactJS and NodeJS.
- Built and tested RESTful APIs, ensuring secure and efficient data flow between client and server.
- Learned best practices for responsive design, improving the adaptability of web applications.
- Collaborated on small group projects to simulate real-world development workflows.

EDUCATION

Bachelors in Software Engineering, Babcock University (GPA: 4.0/5.0)   Sep '20 — Sep '24
Ogun state, Nigeria

- During my time in Babcock i focused on UI/UX through coursework in Human-Computer Interaction and Front-End Development. Developed user-centric projects, including a responsive web application capstone. Participated in hackathons and led tech club workshops on tools like Figma and ReactJS, gaining hands-on experience in prototyping and usability testing.

PROJECTS

LUVVI , FIGMA(Personal Project) Link   Oct '24 — Dec '24
Lagos, Nigeria

- My dating app prototype is designed to help people connect in meaningful ways. With location-based discovery, personalized profiles, and easy-to-use communication tools, it's all about making genuine connections simple and enjoyable. It's more than just a platform—it's a space to find real connections, anytime, anywhere. Interactive Web

SoleMates, FIGMA(Personal Project) Link

Nov '24 — Feb '25
Lagos , Nigeria

- Designed a sleek, user-friendly mobile app that reimagines the sneaker shopping experience for modern consumers. SoleMates allows users to explore curated sneaker collections, receive exclusive drop alerts, and purchase effortlessly within a visually engaging interface.

  Key Contributions:
  - Designed onboarding, product discovery, and cart flow using Figma
  - Focused on responsive layouts and clear visual hierarchy
  - Integrated smart notifications and promo logic for user engagement
  - Conducted user testing to refine usability and improve navigation
  - Applied design consistency across all screens with a custom style guide

  Tools: Figma, Adobe XD, Notion (for planning), Google Fonts Version Control Systems
